

In 2011, the EMDR Research Foundation initiated the "Visionary Alliance" a monthly automatic donation program. As we begin 2012 we are proud to announce that we have 124 Charter Members of the Visionary Alliance. We are grateful to each and every one of you who became part of this important initiative. This steady stream of funding has allowed us to plan for the future and to extend our fundraising beyond the EMDR community. We will all be winners as more quality research is conducted and published! The following Charter Members are recipients of prizes donated by generous conference vendors and members of the EMDR Community. Congratulations!
